

AMIT KUMAR PRAJAPATI

Java Full Stack Developer

Noida, Uttar Pradesh, India | +91-8115666181 | amitkumar8396@gmail.com

PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer with 4+ years of experience building scalable enterprise applications using Java, Spring Boot, Angular, and Microservices. Proven track record of independently delivering end-to-end projects, optimizing application performance, resolving production-critical issues, and collaborating in Agile environments. Experienced with Azure DevOps, Git-based source control, CI/CD pipelines, REST APIs, and cloud-ready application development. Successfully led and delivered NCRMBR and REEP applications single-handedly from requirement analysis through production deployment.

CORE COMPETENCIES

Java | Spring Boot | Spring MVC | Microservices | Angular 18+ | REST APIs | MySQL | Azure DevOps | Git | CI/CD | JUnit | Postman | Agile Scrum | OOP | Design Patterns | Technical Documentation

PROFESSIONAL EXPERIENCE

4AiSoft ODC Pvt. Ltd. | Java Full Stack Developer | Aug 2024 – Present

Leading development and maintenance of Superpools, a platform consisting of 17 Angular-based sites supported by a unified Spring Boot backend.

Independently designed, developed, tested, and deployed NCRMBR and REEP applications, managing the complete software development lifecycle.

Implemented new business features, resolved critical production issues, and strengthened application security across multiple client-facing platforms.

Managed source code repositories, branching strategies, and build pipelines using Azure DevOps.

Collaborated with stakeholders, QA teams, and business users to ensure successful and timely project delivery.

Improved application stability and performance in the P&C Bridge platform through defect resolution and optimization initiatives.

CitiusTech Healthcare Technology Pvt. Ltd. | Java Full Stack Developer | Oct 2021 – Apr 2023

Developed and maintained enterprise healthcare applications using Spring Boot and Angular.

Designed and consumed RESTful APIs while ensuring scalability, reliability, and maintainability.

Managed source code using Git and participated in Agile/Scrum ceremonies.

Contributed to the Java EE Exchange project, focusing on application performance and stability.

Verusys Software Pvt. Ltd. | Java Developer | May 2020 – Oct 2021

Developed backend services using Core Java and Spring Boot.

Built a Patient Management System with multi-device support and third-party integrations.

Developed a Call Center Application integrating external APIs and business workflows.

Applied object-oriented design principles and software design patterns to deliver maintainable solutions.

KEY PROJECTS

NCRMBR & REEP Applications

Single-handedly delivered both applications from requirements gathering, architecture design, development, testing, deployment, and production support using Angular and Spring Boot.

Superpools Platform

Enhanced and maintained a multi-site platform consisting of 17 Angular applications backed by a centralized Spring Boot service.

P&C Bridge

Resolved high-priority production defects, implemented performance improvements, and delivered new business functionality.

TECHNICAL SKILLS

Languages: Java

Frontend: Angular 18, HTML, CSS, JavaScript

Backend: Spring Boot, Spring MVC, Microservices

Database: MySQL

DevOps & Tools: Azure DevOps, Git, JUnit, Postman

Methodologies: Agile Scrum, OOP, Design Patterns, Technical Documentation

EDUCATION

Master of Computer Applications (MCA) | Jabalpur Engineering College | 2017 – 2020

Bachelor of Computer Applications (BCA) | MCRPV University | 2013 – 2016
